

December 16, 2021 - Coub is YouTube for video loops. You can take any video, trim the best part, merge with other videos, add soundtrack. You can make any sound where it makes sense. Coub is the best tool for making videos with meaning. This is what you see on Coub, but you can do better. You can upload the video to YouTube. You can use Coub in real time. You can use Coub as a platform for your videos. You can use Coub as a platform for interacting with subscribers. I'm not saying that Coub is YouTube, because Coub is much better.
