OK, I honestly don't know if this is Rustom and the Bollywood fans will know this. There are people who can never understand the logic of the story in Bollywood films. Another thing is that, most of the hindi films have a "Bend it like Beckham" like girl who does all sorts of things to be accepted by a group of girls who are not pleased with her. So if Rustom went for this, it means that it is a comedy.

But that logic doesn't apply to this film. It is a romance movie.. The fine print says I can watch Rustom on television and stream it online.... can I watch Rustom online without a TV subscription?
