#### Elden Ring setting:

- An Age like no other in the history of the Known World. An age of great power, and an age of transition. The lands of the Land Between are covered in darkness; the land between the dead and the living. Mastered by the power of the Lich King and sealed by his enchantments, the undead roam the world. This age of conflict is fraught with dangers, a place of chaos, where a village is always marching into battle. It is an age of power and might, a world of tumult and drama.
- Beautifully rendered! Robust fantasy world recreated with an artist's perfection.
