Ammy Admin 3.9 Crack is a specialist software solution developed for you to make it easier.Q: Can't add component to an existing component in fullcalendar I'm using fullcalendar to display events from my database. The structure I have is the following: events.php \$row['title'], 'start' => date('Y-m-d', strtotime(\$row['start'])), 'end' => date('Y-m-d', strtotime(\$row['end'])), 'location_id' => \$row['location_id'], 'content' => \$row['content']; } Then I create a calendar by calling fullcalendar('renderEventList') in my view.php with data retrieved from events.php. Now, I want to add new components to the existing events, so I create a function that returns a new event from the data array retrieved from events.php. The problem is that the component created by this function isn't loaded. I also tried to do a refresh() after creating the component. event.php function
addNewEvent(\$events) { \$event = array(); \$event['title'] = \$
