. Cause: Dispose message in Lucene index files was not set. Bug Id: JDK-1493259 index refresh degrades performance at large search queries. JDK-1491883: When searching with an + analysis, certain large queries cause an out-of-memory error.. Suggested Resolution: At the time of the filing of this issue, a fix is not available. Target Milestone: Delivered to beta2 milestone. Description: Dispose message in Lucene index files was not set. When indexing a large field, certain large queries will cause an out-of-memory error.. Problem Description: To test the fix, "Index a large field and run a suspicious query", we are indexing an ngram field (in the filesystem) containing ~22 GB of documents. We are indexing the field using a standard analyzer (Standard) and inserting 1000 documents. We are then querying the index using a standard query (StringQuery). The same field is used to search for documents in a search. My personal background is a lot of telecom engineering (DSP, HT, .
