

Tomtom XI N14644 Europe Maps ((FREE)) Download Free

updates are offered on a monthly basis, and only when an update is available will the tomtom software automatically update. please note that the tomtom service centre will need to have the latest tomtom software to perform the update. if you do not have this software, you can get it online here: www.tommotools.com/software. as part of its smart lock function, the tomtom one will lock the screen when the device is in silent mode. this way, you can still use your phone or other devices, without the tomtom one making any noise. the default screen lock password is your registration or serial number. once your tomtom gps has been updated, and you have checked that your registration or serial number is correct, you can turn off your tomtom device to conserve power. you can get an idea of how much power your tomtom gps device is using by opening the tomtom software and selecting 'power consumption', and selecting 'all power options'. from here, you can see that your device is using up a fair amount of power, between 3 to 4 hours of battery life. the tomtom xpress 4 comes with free lifetime traffic, weather, and road information and 7-day map and route history. you can even download tomtom's windows live services, including tomtom's new live services, including live directions, live travel time, and live traffic (free) for your vehicle's location. with tomtom's live services, you can even use your smartphone or tablet to get turn-by-turn directions and real-time traffic information for your vehicle. and, just like with one, you'll get your voice-guided driving directions for free, not to mention free point of interest information.
