In this game, you can play both online against other users or against computer AI. You can unlock many different statistics of the game and you can even save your game. If you want to play against other users, you can do it through internet and on your own mobile phone. There is a trophy system and the trophy is divided in three different categories, great play, unique and daily challenge, each category has its own set of trophies you can get. In this game, the games continue day after day and the amount of time to win a game is only 40 seconds. You can just wait for the game in progress to finish and then you will get the final results after all the players have finished playing their game. To win a game, you can use many different strategies that you can adjust to fit your specific strategy. For example, you can adjust your opponents strength, but you can also adjust your own strength if you want to increase your chance of winning. From the game menu, you can see which of the players are in
